# MAGICAL MONEY BOXES

Jacob and Hannah have discovered some special boxes hidden in the forest. Each box does something different to the money that was left in it.

## BOX 1

After 7 days, any gold left in this box is doubled!

## BOX 2

This box adds 1 gold coin every day.

## BOX 3

After 7 days, this box adds 10 gold coins.

1. Jacob leaves 3 gold coins in box number one. He goes back after 7 days. How much money will be in the box now?
2. Hannah leaves 5 gold coins in one of the boxes. After 7 days she finds 15 gold coins in the box. Which box must she have left it in?
3. Jacob puts 12 gold coins into box 2. How much will be in the box when he returns after 9 days?
